

BODY SLIMMER[®]

CREATE A **PERFECT** BODY

THE FUTURE OF WELLNESS

BODY SLIMMER - TREADMILL

Body Slimmer is the **ONLY AND ORIGINAL** treadmill equipped with a **VACUUM AND INFRARED** system at 36.8 °C capable of accelerating the slimming process and enhancing the results of remise en forme. Its exclusivity derives from extensive scientific and technological research and from a particular care for design, for the choice of materials and internal components.

Weight Loss 

Heart rate training 

Toned muscles 

Patented software 

Acceleration of metabolism 

100% Italian components 

Circulation improvement 

Adjustable parameters 

Measures 225 X 157 X 130cm
Energy Consumption 2,5Kw
V 230 VAC / 50 HZ / 1 PH

BODY SLIMMER

THE ONE AND ORIGINAL

INFRA SLIMMER - BIKE

Infra Slimmer is the **ONLY AND ORIGINAL** horizontal bike equipped with a **VACUUM AND INFRARED** system capable of speeding up the slimming process and enhancing the results of remise en forme. Its exclusivity derives from extensive scientific and technological research and from a particular care for design, for the choice of materials and internal components.

Circulation improvement

Ergonomic Position

Measures 241 X 123 X 117cm
Energy Consumption 2,5Kw
V 230 VAC / 50 HZ / 1 PH

BODY SLIMMER

100% MADE IN ITALY

ROLL SLIMMER

Roller in fine wood, equipped with infrared lamp for a highly **stimulating massage** for blood and lymphatic circulation and relaxing on the muscle groups. Used in conjunction with the Vacuum exercise, it favors the elimination of excess liquids and increases the **toning effect** on the tissues.

Relieves tension and contractures

100% Italian components

More elastic and toned skin

Manual or preset program

Firming and anti-cellulite

4 levels of rotation speed

Circulation improvement

Use on the whole body

Measures 114,6 X 75,2 X 95,2 cm
Energy Consumption 0,8Kw
V 230 VAC / 50 HZ / 1 PH

BODY SLIMMER

GENERAL WELLBEING

ACTIVE BED

A

CTIVE BED is an orthostatic bed for total body toning exercises, also suitable for the practice of Yoga and Pilates. The constant temperature of 36.8°C created inside it is the ideal condition for keeping the **metabolism active** and maximizing the effects of the session.

Body remodeling

Resistance cables

BODY SLIMMER

TONE UP, YOGA & PILATES

INFRA LIPO BIKE

NFRALIPO BIKE is a brand new product on the market and a unique system of its kind, which combines the effectiveness of a specific technology for fat disruption - Lipolaser + Infrared - and the benefits coming from cardio activity. Thanks to the "cold" laser rays directed towards the abdominal area, it is possible to **lose weight** and at the same time **reshape muscles**. All combined with a futuristic and extremely impactful design.

Weight Loss

Circulation improvement

Magnetotherapy

Measures 158 X 170 X 260 cm
Energy Consumption 2,5Kw
V 230 Single phase - Power
(Amp.10 Watt 2200)

BODY SLIMMER

THE FUTURE OF WELLNESS

HYDRO SLIMMER

HYDROBIKE is an innovative device which uses the **RESISTANCE OF THE WATER**, (twelve times stronger than air) to reshape the body. Scientific studies proved that a micro-gravity environment helps to accelerate motor rehabilitation of people who cannot overcharge their lower limbs.

Body remodeling

Chromotherapy

Draining action

Double hydromassage

Toned legs and thighs

Utilization of both sea and thermal water

Better blood circulation

Touch screen

Measures 159 x 132 x 154 cm
Energy Consumption 4,5k
Capacity 280 liters of water

BODY SLIMMER

THE POWER OF WATER

EFFICACY AND QUALITY OF MADE IN ITALY

100% Italian production is what sets **Body Slimmer** equipment apart and makes it the best choice for those who want to dedicate themselves to slimming, wellness and remise en forme with a cutting-edge method and reliable technology tested in our laboratories.

We take care of the design, production and software development, we are always looking for more and more innovative and functional solutions and we offer a widespread after-sales service. All this to ensure maximum safety, efficacy and durability.

TECHNICAL DESIGN

PRODUCTION

SOFTWARE

MADE IN ITALY

A SAFE AND SUCCESSFUL INVESTMENT

BODY SLIMMER SOFTWARE

The software of **Body Slimmer** devices is designed to make the activity session even more complete and comfortable. It is a software patented by our company and is currently the **only one on the market** to regulate the intensity and rhythm of the training based on your heart rate.

Choose whether to activate extra features like collagen or aroma

Automatically adjust the intensity based on your heart rate

Look at the distance run and how many calories you have already burned!

Connect on the web and watch your favorite videos

Adjust all parameters during the sessions

ASSISTANCE

We believe that a good assistance service is of fundamental importance for those who choose **Body Slimmer**, so that the customer does not feel left alone after the investment.

The customer care department will be ready to answer any questions, keep you updated on news and will always be a point of contact with the company for any need.

The technical assistance team is located throughout the territory and ready to intervene for regular maintenance or for extraordinary interventions in 24/48h.

To increase efficiency and speed, we provide technical assistance through video tutorials and video conferences.

READY IN 24/48 HOURS FOR ANY PROBLEM

ORIGINAL PRODUCTION

Our desing and production departments are able to create OEM and ODM products for your company. You put the brand on it, we put quality, expertise, twenty years of experience in the beauty and wellness sector and the invaluable added value of **Made in Italy**.

FUTURE

ORIGINAL PRODUCTION

THE RIGHT COMBINATION FOR WEIGHT LOSS

Body Slimmer + Balanced Diet = **Maximum Results**

How does **Body Slimmer** work? The **Vacuum** creates a depressurization effect stimulating blood and lymphatic circulation. The **Infrared rays** heat the tissues in depths acting on metabolism. This combined action, together with regular movement and a balanced diet, increases calories consumption and fat burning, accelerates the slimming process promoting **enzymatic reactivation** and restoring optimal **metabolic conditions**.

Thanks to the powerful inducement given by the Vacuum and the Infrared it is as if the aerobic work on the treadmill and on the exercise bike were intensified up to 5 times compared to traditional fitness equipment

The photos of **Before** and **after** show the results obtained after **4 weeks** of treatment with **Body Slimmer**, 3 times a week for **30 minutes**, performed at the pilot center in Milan

BEFORE - AFTER

SCIENTIFIC STUDIES

“ In 4 weeks it is possible to lose weight both with a traditional aerobic workout and with **Body Slimmer** training system. However, Body Slimer training system proved to be more effective as the results in terms of fat reduction in problematic areas were much more relevant than those obtained with traditional aerobic training ”

From the conclusions of the study “ Vacuum Vs. Training Only ”, Prof. Dr Christoph M. Bamberger, Dr. Sabine Guth Medical Prevention Center Hamburg (MPCH), University Medical Centerr Hamburg-Eppendorf (UKE), 2010

GROUP A: 20 women aged from 30 to 50 subjected to a traditional aerobic workout for 4 weeks
GROUP B: 20 women aged from 30 to 50 subjected to a Vacuum + Infrared training for 4 weeks

	GROUP A	GROUP B
Weight loss	-2,3 kg	-3 kg
Total circumference reduction (legs, hips, abdomen)	-8,3 cm	-19,9 cm

GROUP A: 16 men aged from 30 to 50 subjected to a traditional aerobic training for 4 weeks
GROUP B: 16 men aged from 30 to 50 subjected to a Vacuum + Infrared training for 4 weeks

	GROUP A	GROUP B
Weight loss	-2,3 kg	-3 kg
Total circumference reduction (hips, abdomen)	-4,4 cm	-13,3 cm

SCIENTIFIC STUDIES

The efficacy of **Body Simmer** training system is proved by several scientific studies.

“ Depressurization (of **Vacuum** devices) increases capillarisation and vessel dilation, enhancing the flow of oxygenated blood in the lower limbs. (...) The greater lymphatic flow and drainage cause an increase in pH. This contributes to the strengthening of the connective tissue (better synthesis of collagen) and to the reduction of cellulite. ”

From “ Use of devices for intermittent negative pressure therapy for the treatment of athletes ”, AK Orletskiy, DO Timtschenko, NN Priorov Central Institute, 2009

“ By heating the blood (via **infrared** rays) the vessels relax, blood flow increases and muscle rigidity is reduced. At the same time endorphines are released. These processes interact with each other, leading the body to a situation of general well-being and promoting metabolic and weight loss processes. ”

Professor Lundberg, Karolinska Institutet, University of Stockholm, Sweden

ACTIVITIES.....Calories burned in 1h:

- Walking	140
- Working at home	150
- Dancing	350
- Fast Walking (6km/h)	370
- Biking (30km/h)	500
- Body Slimmer	1300

MARKETING MATERIAL

We provide you with depliants, brochures and other informative and promotional material to give your clients and let them learn about **Body Slimmer**.

OUR EXPERTISE AT **YOUR DISPOSAL**

Once you buy our equipment, we will offer you our post-sale services:

Technical and method training

Technical assistance in 24/48h

Communication and web promotion

Marketing and sales training

ONLINE BRANDING

By our digital and social activity we promote the brand **Body Slimmer**, in order to catch the attention of more and more users to turn them into potential clients.

COMMUNICATION

BODY SLIMMER IN THE WORLD

With more than **25 centres** in Italy and 6 locations over two continents, **Body Slimmer** is growing quickly and becoming more and more popular, without losing its exclusive allure. Body Slimmer has been chosen by particularly prestigious and relevant hotels and leisure groups.
